

# ROBOT CHALLENGE

**Calvary's Vacation Bible School (VBS) has issued a challenge to the church family.**

**Please consider joining in the fun!**

**Guidelines:**

This can be an individual project or a family project.

Create a 3 dimensional robot, with a height between 1 foot and 6 feet.

Use your choice of materials, such as recycled items, cardboard, plastic, metal, wood...

Your robot may have movable parts, but this is not required.

Bring your robot to Calvary Baptist Church on **Sunday, June 26<sup>th</sup>**.

Ribbons will be awarded in various categories during VBS week.
